

Do you realise what our National curriculum would do for your education?

No idea.

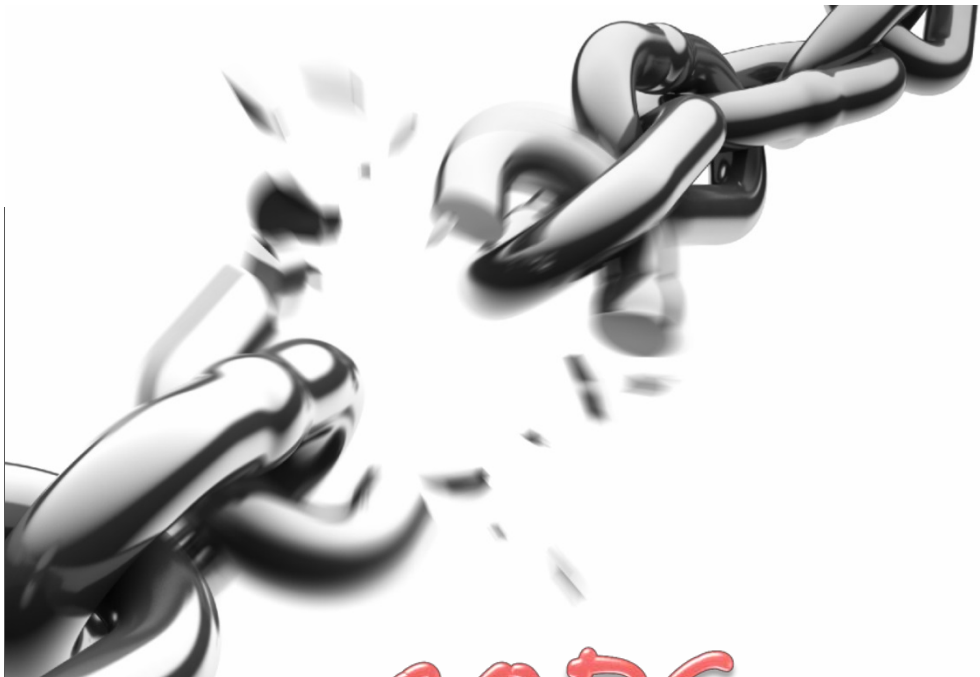

Correct.

“How do we get an exciting and engaging 21st century curriculum without creating huge amounts of work?”

How?

1. We don't begin **actual change** until **Spring 2014**, using the Autumn Term to prepare;
2. We centre our work on the '**COPS School Curriculum Aims**' and make the new National Curriculum work for us;
3. We **keep** the excellence and we **re-model** the average.

Let Ken inspire us...
